

Deer with a Beer: Day 11

Deer with a Beer: Day 11

Rudolph was on fire today (not literally, panic not. No venison here...)

He had exercised for 5 hours straight to beat that beer belly bulge and didn't even stop for a carrot.

Here's a sneak peek of what he got up to...

(The Exercise DVD, Venison Mean Machine, will be out after Christmas in time for all those New Years Resolutions).

Enjoy!

(This is a high end, high budget production. No animals were harmed during the making of this video...)
